Life in a Waterdrop at Lake Weissensee

This leisurely tour starts at the Weissensee Information in Techendorf-Süd. Along the way we taste and smell enchanting wild plants. After a *short hike* (approx. 1 km) to the *viewing platform*, we relax and listen to the *ranger* who tells us fascinating facts and information.

Accompanied by a *Biosphere Park ranger*, you will explore the area and learn interesting facts about nature and the special features of the Nockberge Biosphere Park.

In the nature encounter park "*Silva Magica*" you can experience the unique landscape you are in with all your senses. After visiting one of the most popular exhibitions on the Nockalm Road "*Trees as survival artists*", you will make your own *personal souvenir* of this day in nature.

Guided tour in: German/English, for visitors with hearing disabilities written information will be provided during the hike

The Egger Alm on the Carnic Main Ridge is one of the most *rustic alpine pastures in Carinthia*. In the mornings and evenings, the dairy cows are brought from the alpine fields to the barn where they are milked. The milk is then processed. After a *guided hike*, this Gailtaler Almkäse is then *tasted*.

The alpine shuttle service offers the possibility to visit the nature experience with a barrier-free transport.
